Proceedings of the Government of His Highness
the Maharaja of Mysore.

Order No. J 314-23 / Lgis 43-11-6
Dated Bangalore the 18th April 1913.

.....

Instances of ill-treatment of tonga ponies maintained by mail-contractors and other plying carriages for hire having come to notice, Government consider it desirable in the interests of these animals that half-yearly inspections should be made by a Police Officer of at least the rank of an Inspector and a Veterinarian of all the ponies or mules which carry mails or passengers along the recognised routes in the State. The Deputy Commissioners of the districts in which tonga service exists for the conveyance of passengers or mails, will give their best attention to this matter and submit a report for the information of Government at the end of every six months about the condition of the ponies or mules used for the tongas. Their attention is also invited to section 57 of the Mysore Police Regulation No.V of 1908 and they are requested to issue necessary instructions to the Police Officers to take action under the above section in suitable cases.

The next report should be submitted by the end of July 1913.

passengers along the recognized routes in the State and a report about the condition of the animals should be submitted to the Govt. by the Deputy Commissioners concerned every half-year. Further, their attention has been drawn to the provisions of Section 57 of the Mysore Police Regulation No V of 1908 with a view to enforcing them in suitable cases.

2. From the reports received, the Durbar have no reason to say that the number of animals now maintained by the Contractor for the mail and passenger traffic on the road in question is inadequate. But it is gathered that only three or four animals are unserviceable and that the Contractor has been asked to replace them at once; and it is ascertained that no infringement of the laws in force is committed by him.
